

# Air Piloted Valves

## Air Piloted Valves

Just as Tyco Environmental Systems can satisfy most requirements for solenoid pilot valves, we also offer the pneumatic system specifier the same flexibility of design and range of options for air piloted valve applications.

The Goyen air piloted valves are available in a wide selection of sizes, configurations and specifications to suit almost any project. All are built to the fine tolerances and production quality you expect from the Goyen brand to ensure they provide you with reliable, long term service.
