

## **Diverter Blocks**

Wilkerson diverter blocks allow the extension of prepared compressed air to three separate directions for its broader usage application. Modularly designed for installation with Wilkerson's 08, 18, 28 and 38 FRLs, the diverter blocks series is available with 1/8", 1/4", 1/2", and 3/4" port sizes.

Mountable anywhere in the FRL system, this series is lightweight and modern in appearance.
