

Lubricators

Lubricators

Wilkerson L series Economist Lubricators inject an oil aerosol into the flowing air stream to automatically provide the proper amount of internal lubrication to air valves, cylinders, air motors, air tools and other pneumatic devices requiring lubrication.

Available in 4 separate series L08, L18, L28 and L39 and in port sizes 1/8" to 1".

Wilkerson L series Lubricators feature:

- * Combination sight glass and adjustment knob to vary level of lubrication over a broad range of requirements.
- * Lubricating fluid can be replenished while unit is under pressure.
- * Lubricant pick-up siphon is equipped with a sintered bronze filter to remove contaminant laden in oil.
- * Plastic bowl with viewing slots as standard.
- * Barbed manual drain connected and bayonet type bowl mount for ease of service.
- * Install modularly or hard piped.
