- Spool Valves - Manually Operated
 - Foot Operated Valves
 - Lever Operated Valves
 - Button Operated Valves
- Poppet Operated Valves

- Operator: Lever, Push Button, Foot/Palm Button, Roller Ball, Tappet, Air Piloted, Lever Button, Cam, Trip Cam.
- Ancillary Controls
 - Flow Control Banjo at Cylinder Port - Type FCB
 - Flow Control in the Line - Push-in Tube Connections - Type FCP
 - Flow Control in the Line - Threaded Connections - Type FCT
 - Flow Control/Silencer at Valve Exhaust Port - Type FCSE
 - In-Line 3/2 Isolation Valve - Type HSV
 - Silencer - Type S
 - Non-Return Valve - Type NRV
 - Shuttle (OR) Valve - Type SHV
- Quick Exhaust Valves
- Holdback Valves

Foot Operated Valves

Tyco Environmental Systems' foot operated pneumatic control valves are available in the Goyen brand.

These mechanically operated 3 port, 2 position and 5 port 2 position pneumatic valves are available in 2 port sizes 1/4" Rc and 1/2" Rc.

All foot operated valves in this series are equipped with spring intergrated return function as well a heavy duty cast aluminum shroud preventing accidental operation.

Seal, piston and spool replacement kits for foot operated valves are available on request.
